PROFESSIONAL OBJECTIVE

Bachelor's student in Computer Systems Engineering and Web Technology at EST Sidi Bennour, with experience in web development and database administration. Currently seeking an internship in software development, DevOps, or database administration to apply my technical skills, strengthen my practical experience, and contribute to real-world IT projects.

PROFESSIONAL EXPERIENCE

Internship – Fullstack Developer | Pepper World, Agadir, Morocco   03/2025 – 04/2025
- Developed and maintained fullstack web applications using Laravel and jQuery, implementing QR code generation and scanning , advanced data filtering
- Optimized database performance and ensured data integrity for multiple application modules.
- Collaborated with cross-functional teams to gather requirements, test features, and deploy updates.
- Applied best practices in security, filtering, and calculation functions to enhance user experience.
- Utilized development and collaboration tools such as Git, Gmail, and project management platforms.

TECHNICAL SKILLS

- **Programming:** Java(springBoot), PHP(Laravel, WordPress CMS) , NodeJs(Express.js)
- **Data:** Oracle Database (Administration, PL/SQL), MySQL, NoSQL (MongoDB)
- **Web Engineering:** React, Angular, SPA/Micro-frontends Architecture, Performance Optimization, Web Vitals, Responsive Design.
- **Systems & Network Admin:** Linux OS Management, Network Engineering, Resource Access Control, System Configuration
- **Virtualization & Cloud:** Docker (Containerization & Microservices), Virtual Machines (VMware/VirtualBox), Cloud Infrastructure Models, Application Deployment
- **Engineering & Tools:** Agile/Scrum, UML Modeling, Software Design Principles, Git/GitHub (Version Control), Project Documentation

FORMATION ACADÉMIQUE

Ecole Supérieure de Technologie Sidi Bennour,   2025 – 2026
EST Sidi Bennour | B.Sc. Computer Systems & Web Technology
Advanced program focused on the convergence of Software Engineering and Infrastructure. Specialized in Full-Stack Web and Mobile development (Java/OOP) alongside Advanced Database Administration. Competencies include Network and Application Security, Virtualization, and Cloud Computing, with a strong emphasis on Agile Methodologies and professional system integration.

Institut spécialisé de technologie appliquée, Mirleft,   2023 – 2025 | Mirleft, Maroc
ISTA Mirleft | Diploma in Digital Development (Full-Stack Web)
Comprehensive two-year program covering the full software development lifecycle. Advanced from core static and dynamic web development to building complex, cloud-native applications. Developed expertise in relational and NoSQL database modeling (Merise/UML), secure backend architecture, and modern microservices orchestration using industry-standard Agile methodologies.

PROJECTS

- SaaS Management Platform for Co-ownership (Syndic) |Spring Boot, React, Docker
- Perfume E-commerce | Laravel, React
- Job Search Platform |Laravel, Angular
- Digital Library System | Laravel
- Real-Time Infrastructure Monitoring Stack | Linux, Graphite, Telegraf, Grafana

ADDITIONAL INFORMATION

Languages: Arabic (Native) | English (Intermediate) | French (Intermediate)

Soft Skills: Problem Solving, Team Collaboration, Tech Watch, Effective Communication, Adaptability, Fast Learner.
